👤 Profile Summary

> UI/UX Designer and Front-End Developer with 4+ years of experience creating user-centered web and mobile products across healthcare, fintech, e-learning, and SaaS. Expert at transforming complex requirements into intuitive, accessible, and scalable solutions. Skilled with Webflow, Framer, front-end code, and brand design, thriving in cross-functional teams.

💼 Experience

UI Designer

Manitoba Blue Cross • Winnipeg, MB

📅 Nov 2024 – Present

- Design user interfaces for the MyBlueCross mobile app redesign, delivering high-fidelity screens and interaction-ready components aligned with product and accessibility requirements.
- Design, update, and maintain UI across the Manitoba Blue Cross website and associated digital properties, ensuring visual consistency, responsiveness, and WCAG-compliant accessibility.
- Partner closely with UX designers, product managers, developers, QA, and business stakeholders to translate complex insurance and healthcare requirements into clear, intuitive interface solutions.
- Produce high-fidelity UI designs, interactive prototypes, and detailed design specifications in Figma to support efficient development handoff.
- Participate in design reviews and usability feedback sessions, iterating on designs to improve clarity, usability, and member confidence.
- Apply and extend the organization's design system, creating and refining components to support scalability across mobile and web platforms.

Product Designer

Webgro. • Remote

📅 Oct 2022 – Mar 2024

- Led an e-commerce app redesign, designing intuitive UI/UX and implementing front-end code, resulting in a 30% increase in task completion and fewer support tickets.
- Designed responsive interfaces aligned with client brand identities and business objectives, and built them in code for web and mobile platforms.
- Developed and implemented a reusable design system, reducing design and development time by 40% across multiple projects.
- Collaborated closely with developers, QA, and product managers to ensure seamless handoff from design to fully functional applications.
